The HealthCarePro™ is a normative psychometric profile designed to help recruit, select and retain top performing health care professionals. It assesses several key characteristics that have proven to be effective in predicting the patient care experience.

The HealthCarePro™
• Helps to recruit high potential health care practitioners
• Increases the quality of the patient experience
• Can be customized and validated for all health care organizations
• Identifies strengths and growth opportunities
• Provides coaching and development suggestions
• Includes comprehensive self-coaching feedback

The HealthCarePro™ can help patient focused health care organizations increase engagement, reduce “early burn out” and maximize the patient experience. The HealthCarePro™ can be a major component of an Integrated Talent Management Solution that helps with career development and improves retention by matching individuals to the best FIT career path.
The HealthCarePro™ is a powerful tool to help attract, develop and retain top performing health care professionals.

The HealthCarePro™ measures 8 separate character traits that predict performance and retention.

In addition, the HealthCarePro™ measures self confidence, lifestyle management and listening style. It is a proven tool to help place an individual in the best FIT career path to maximize retention and career satisfaction.

The HealthCarePro™ assesses and reports on:

- Consulting and leadership styles
- Approach to motivating self and others
- Decision making, goal setting and approach to feedback
- Emotional awareness of self and others (Emotional Intelligence)
- Success factors such as self management, motivation, comfort with conflict, confidence and lifestyle management
- Fit to team and culture
- Listening style and approach to patients, doctors and colleagues

The HealthCarePro™ is a normative personality profile which was developed using advanced statistical methods in psychometric research.

SELF MANAGEMENT GROUP
